## **Work On Design For Post Office**

*14 May 1965*

WASHINGTON (Special)

—General Services Administration officials said Thursday they hoped to have a design for the new Heber City Post Office completed by Aug. 20. Bids would probably be advertised about Sept. 10.

A construction contract would be awarded with work to be completed by September, 1966.

*17 Oct. 1964*

## **Federal Building Okayed**

Deseret News Washington Bureau

WASHINGTON—A design for construction of a new post office and federal office building in Heber, Utah, has been accepted by the General Services Administration, Sen. Wallace F. Bennett, R-Utah said Thursday.

The building, to be located on the northeast corner of 1st North and 1st East, was designed by the architectural and engineering firm of Lorenzo S. Young and Partners of Salt Lake City.

It will consist of a two-story section for offices of federal agencies and a one-story portion for postal operations.

It will have a gross floor space of about 8,840 square feet and will be built at an estimated cost of \$161,300. A parking area will adjoin the building.

# Architect Releases Design for New Heber Federal Building

## Design Accepted by General Services For New Structure

Senator Wallace F. Bennett (R-Utah) announced today that a design for the construction of a new Post Office and Federal Office Building in Heber Utah has been accepted by the General Services Administration.

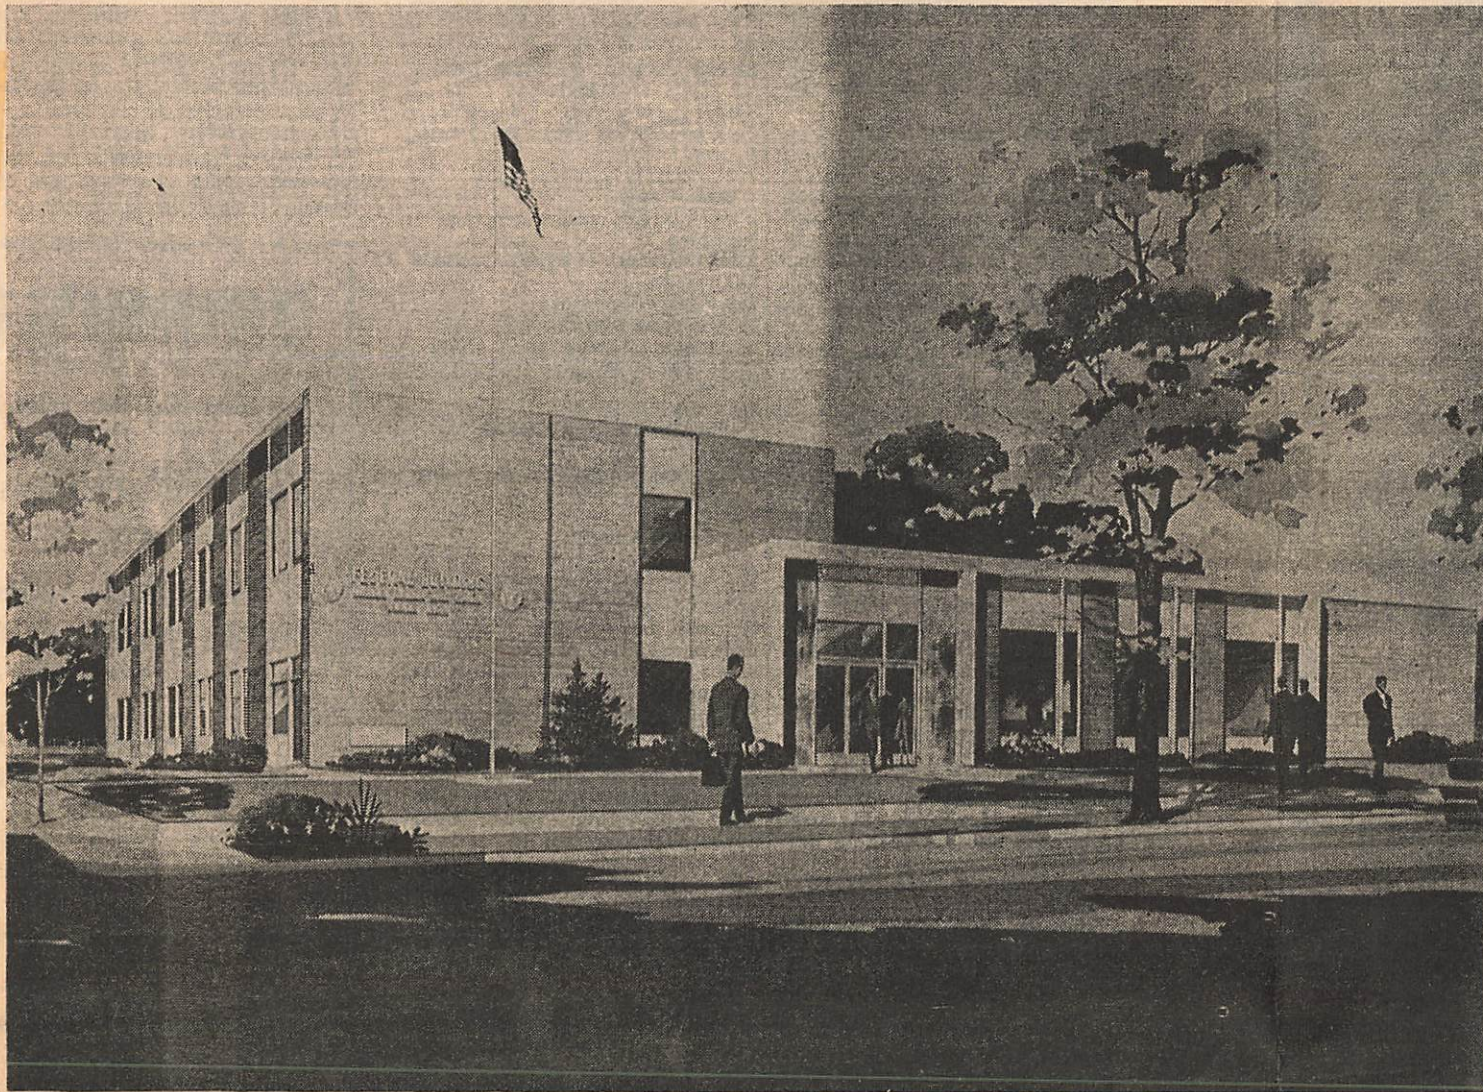

The building, to be located on the northeast corner of First North and First East Streets, was designed by the architectural-engineering firm of Lorenzo S. Young and Partners of Salt Lake City, Utah.

It will consist of a two-story section for offices of Federal agencies and a one-story portion for postal operations. The structure will have a gross floor space approximately 8,840 square feet and will be built at an estimated cost of \$161,300.

Exterior construction will consist of an face brick and concrete masonry, precast architectural stone, aluminum and glass window wall panels.

The interior materials will consist of concrete masonry unit and drywall partitions; terrazzo, ceramic, resilient and asphalt industrial tile floors. There will be suspended ceilings constructed of acoustical tile.

Paved parking areas will adjoin the building.

**NEW HEBER POST OFFICE**— An architectural design by the architectural-engineering firm of Lorenzo S. Young and Partners of Salt Lake City has been accepted by the General Services

administration for the new Federal Building to be constructed in Heber City on the corner of First North and First East Streets.

The building will be a two-story unit with offices for agencies.

On Wednesday evening Mr. and Mrs. A. C. Moulton, Mr. and Mrs. N. C. Watson were in Provo at the home of Arnold Augel, cousin of A. C. and Ethel who had passed away. Mrs. Moulton also worked with him at Taylor Brothers Store in Provo.

Russell McDonald of Seattle, Washington returned home by jet Monday evening after a visit here with his mother, Mrs. Deloris Johnson and brother, Mr. and Mrs. Wayne McDonald. He enjoyed the deer hunt with friends before his return to Seattle.

"When the frost is on the pumpkin and the fodder's in the shock . . ." What a beloved season is autumn!

It's the time for football, crisp, sunny days, a multi-colored landscape, and foods especially associated with the season. Plump, juicy apples, so plentiful in the fall, share the spotlight with other popular foods.

That's why spicy apple upside-down cake fits so appropriately into the menu.

The spicy aroma that permeates the air as the cake bakes will whet your appetite. It's an aroma typical of autumn cooking.

An advantage of upside-down cake is that it is a finished product when taken from the oven. There's no time-consuming, bothersome frosting job to be done before serving.

Upside-down cakes use various fruits. But it is unusual to find a recipe that calls for apples, and a happy discovery when they are so plentiful.

The cake itself is extra tender and light. Buttermilk is the ingredient that gives it these characteristics.

This fresh dairy product has the same effect in all baked goods. So, if you've only used buttermilk as a refreshing beverage, it's time you learned of the advantages it offers as a cooking ingredient.

Serve spicy upside down cake slightly warm. For an extra flourish, top it with ice cream

or whipped cream.

#### **SPICY APPLE UPSIDE-DOWN CAKE**

8-inch square pan 6 servings  
375° preheated oven, 30-40 min.

¼ cup butter  
1 cup firmly packed light brown sugar  
2 cups peeled and sliced tart apples  
2 tablespoons chopped walnuts  
Cinnamon  
1½ cups sifted flour  
½ teaspoon cloves  
½ teaspoon cinnamon  
¼ teaspoon allspice  
¼ teaspoon salt  
½ teaspoon soda  
1 teaspoon baking powder  
½ cup butter  
1 cup firmly packed light brown sugar  
1 egg  
½ cup buttermilk

Set oven at 375°. Put the ¼ cup butter in an 8-inch square pan and set in the oven to melt. Remove and sprinkle with light brown sugar. Arrange apple slices in rows. Sprinkle with chopped walnuts and cinnamon. Set aside. Sift dry ingredients together. Cream the ½ cup butter. Add brown sugar and mix well. Blend in egg. Add sifted dry ingredients alternately with buttermilk. Pour batter over apple slices in pan. Bake in a 375° preheated oven for 30-40 minutes or until cake tests done. Invert on large plate. Let stand for 5 minutes. Remove pan. May be served with ice cream if desired.

Niff and Addie Murdock spent Sunday night with Mr. and Mrs. A. C. Moulton. On Monday Niff went looking for deer while Addie visited her sister, Florence and others.

space industry, he's assured of space aplenty in which to hunt and fish.

In fact, personnel officials at many Utah industrial plants report they have little trouble persuading new executives and specialists to move to the state, since they can assure them of more-than-adequate room outdoors in which to pursue deer, elk or even bobcats, plus space enough on streams and lakes for swinging a casting rod.

With such prime sportsmen's areas as the Wasatch, Uinta, Fishlake, Cache, Manti-Lasal and Dixie National Forests within its borders, Utah contains just over 7,000,000 acres of national forest lands—and deer aplenty. In addition to 555,000 acres of national parks and monuments, including Zion, Bryce and Canyonlands, the state likewise boasts two vast new National Recreation Areas on two
